

GMG SLIDER SEAT MOUNT ASSEMBLY

INTENDED FOR OEM SEAT BELT
RECEPTACLE ONLY. MOUNT RACING LAP
HARNESSES TO CHASSIS

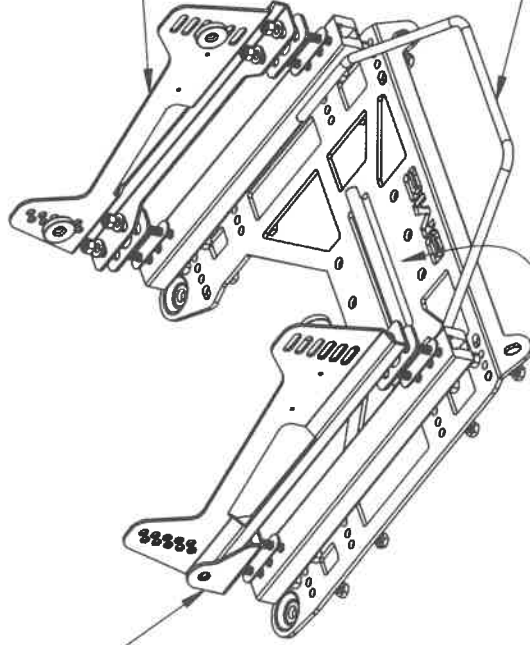

STANDARD SLIDER SIDE MOUNT SHOWN

(WIDE OR TALLER SIDE MOUNTS
AVAILABLE UPON REQUEST)

PART#

SM-SIDE-S1G (GREY)

SM-SIDE-S1B (BLACK)

PROPER RELEASE HANDLE INSTALLATION :

THE RELEASE HANDLES ARE UNIVERSAL AND ARE NOT ALWAYS THE CORRECT WIDTH FOR PROPER INSTALLATION. DEPENDING ON THE SLIDER MOUNTING LOCATION THE RELEASE BAR MAY NEED TO BE BENT TO THE CORRECT WIDTH. ONCE THE CORRECT MOUNTING LOCATION HAS BEEN DETERMINED FOR THE SEAT BEING USED THE RELEASE BAR NEEDS TO BE BENT A 1/2" WIDER THAN THE SLIDERS SO ONCE INSTALLED IT IS UNDER A PRELOAD PREVENTING IT FROM POPPING OUT.

******NO PART OF THE RELEASE HANDLE SHOULD EVER BE MAKING CONTACT WITH ANY PART OF THE SEAT MOUNT, SEAT, OR CHASSIS PREVENTING THE SLIDERS FROM FULLY LOCKING. ONCE IN A FULLY LOCKED POSITION THERE SHOULD BE A MINIMUM 1/4" OF CLEARANCE BETWEEN THE RELEASE BAR AND ANY POINT OF POSSIBLE CONTACT******

**SUB BELT MOUNTING TO EITHER OF THE
6 CENTER HOLES OR CENTER BAR**
